

AXXESSTM
SELF-EXPANDING BIFURCATION DES

Raising the standard in bifurcation

Proven clinical benefits with advanced design!

Axxess features the
largest patient cohort with 5-year data
on a dedicated bifurcation stent

Combined patient cohort - AXXESS PLUS and DIVERGE trials out to 5 years^{1,2}

DIVERGE 5-year data

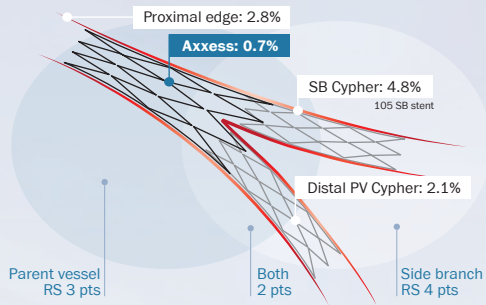

AXXESS™
SELF-EXPANDING BIFURCATION DES

Raising the standard in bifurcation

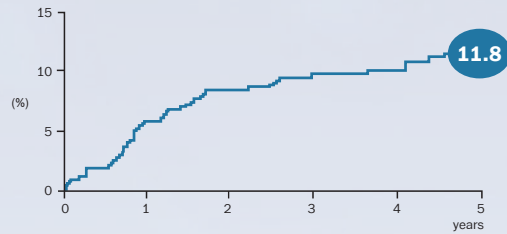

Sustained efficacy

Very low restenosis rate in bifurcation lesions^{3,4}

Location analysis

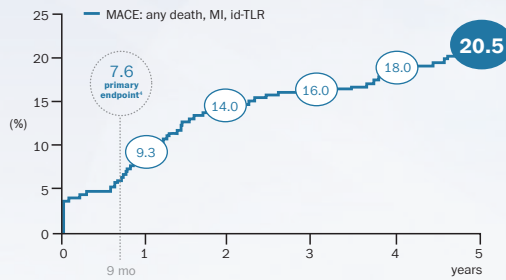

id-TLR²

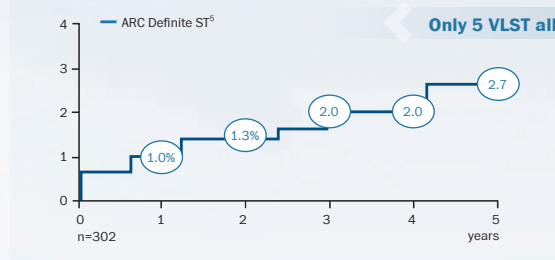

Low in-stent late loss (Axxess only) in DIVERGE at 9 months²: 0.18 mm

Low MACE rate confirmed over time

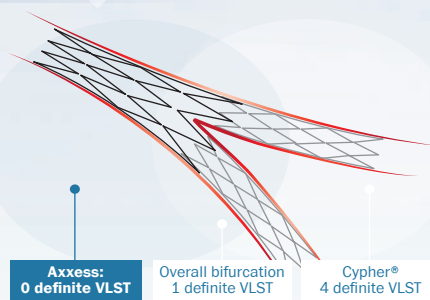

The use of Axxess for the treatment of complex bifurcation lesions resulted in low 5-year outcomes, with a MACE rate of 20.5%²

Very low definite VLST

Only 5 VLST all involving Cypher®

Location analysis

In the DIVERGE trial, no VLST event resulted in any death²
